About Us

Founded in 2002, Visimex has proudly evolved into a pioneering force in sustainable agricultural development in Vietnam over the past two decades. With internationally recognized organic certifications such as BRC, India Organic, JAS, and EU Organic, Visimex affirms its long-term commitment to quality, transparency, and sustainable development, continuously elevating the value of Vietnamese agricultural products on the global organic agriculture map.

Central to our success are the partnerships we've developed with local farmers. Collaboratively, we've applied organic farming methods that eliminate harmful pesticides and chemicals, ensuring the production of high-quality organic goods. We are dedicated to providing fair prices for these premium organic products.

The best from Vietnamese Nature

Visimex selected products from Vietnam's finest sources and processes them in our international standard factories. We prioritize quality by carefully selecting the best materials and implementing stringent quality control measures during processing. Our commitment to excellence ensures that our raw material products meet the highest industry standards. With Visimex, you can trust in the quality and purity of our products, harvested from the best sources in Vietnam and processed with precision in our world-class facilities.
