COMMERCIAL ALLOCATION NOTICE: DIESEL EN 590 10 PPM (EURO-5)

Principal Control & Origin

- **Product:** Automotive Gasoil Diesel EN 590 10 ppm (Euro-5 specification).
- **Origin:** Direct primary extraction, processing, and refining nodes (Central Asian/Eurasian production infrastructure).
- **Volume Availability:** Fixed monthly allocations and spot parcel liftings (Available via FOB, STS, or TTO structures).

Mandatory Buyer Criteria & Intake Protocol

- **Corporate Verification:** Submission of official corporate registration, verified physical address, and Ultimate Beneficial Ownership (UBO) disclosure.
- **Financial Capability (RWA):** Proof of funds established via a bank-to-bank instrument (operative BCL or SWIFT MT799/MT760 readiness) from a tier-one financial institution.
- **Execution Governance:** Transactions execute strictly under Master Sales and Purchase Agreements (SPAs) utilizing standard Incoterms 2020. Financial settlement occurs exclusively via bank instruments (UCP 600 Letter of Credit / MT700 / MT103 wire settlements).
- **Intermediary Policy: No brokers or mandates permitted on the execution team.** Facilitators must execute separate bilateral NCNDA/IMFPA structures directly with their respective buyer clients and step aside permanently from operational communication.
